SECTION 3 - DESCRIPTION OF SWITCHED SERVICES

3.6 Toll Free Services

3.6.1 General

- (A) Toll Free Service is a reverse billed Service that allows the Customer to pay for incoming calls. It permits calls to be completed to the Customer's location without charge to the calling party. Customers may subscribe to TFS with or without the ability to receive intrastate IntraLATA Service from the Company.
- (B) TFS includes: (1) a TFS Number that can be selected by the Customer or randomly generated by the SMS/800 database; (2) an Area of Service selected by the Customer; and (3) various optional features.
- (C) If the Customer does not advise the Company of its choice of a specific Resp Org, the Company will determine which Resp Org will be used.

3.6.2 Availability

M/N

(A) Area of Service

Area of Service allows a TFS Customer to block or allow calls to a given TFS Number based on the originating area of the caller. Area of Service blocking is dependent on valid ANI being delivered in the network. Calls placed from outside the Customer's Area of Service will receive an announcement informing the caller that calls cannot be completed from the caller's location. The call will then be terminated. The Customer's minimum area of service must include at least one interstate area.

M/N

M1

M1

(B) Originating and Terminating Access

N

Toll Free calls may originate on any type of access but are terminated via DVA or Switched Access lines to the Customer's location.

M2

M2

(C) Termination of TFS

N

TFS may terminate in the State where Dedicated Access or Switched Access are available.

N

3.6.3 Optional Features

Optional features are available for interstate service. A description and the associated rates for interstate service may be found in the Company's interstate Voice Product Reference and Pricing Guide which may be found at [www.sbc.com](http://www.sbc.com). These rates do not apply to intrastate Services.

- .1 The Company reserves the right to require Customer(s) requesting TFS to supply the following information when requesting Service: an initial traffic forecast, identification of anticipated busy hour, identification of its geographical marketing target areas, and a schedule of marketing and promotional activities. A new traffic forecast may be required quarterly after Service is initiated.
- .2 A TFS Customer will provide not less than ten (10) business days' notice prior to implementation of special advertising or other new promotions likely to stimulate usage. The Company reserves the right to request traffic data, which depending on the forecast, may delay Service due to the addition of facilities.
- .3 With respect to any Resp Org service or SMS Resp Org changes the Company provides to the TFS Customer, the Customer will indemnify and hold the Company harmless against any third party claims arising out of the execution of changes requested by the Customer.

T

.1 The Company will accept a prospective TFS Customer's request for a particular TFS Number and will reserve such number on a first come, first serve basis. A TFS Number so requested, if found to be available, will be reserved for and furnished to the eligible Customer, providing the Customer:

- .a subscribes to Toll Free Service within forty-five (45) days of the reservation of said number; and
- .b provides acceptable credit information; and
- .c uses the Service within an additional ninety (90) day period.

If a Customer who has received a Toll Free Number does not subscribe to and use the Service within the ninety (90) day period specified above, the Company reserves the right to make the number available for use by another Customer in accordance with the terms in this section.

(I) Application of Charges D/M/T

Rates and charges are associated with the Customer's BTN. For an existing Customer who subscribes to TFS in the middle of a billing cycle, monthly recurring charges are prorated based on the amount of time the plan is in effect prior to the first bill. Calls terminating to Switched Access will be rated with switched rates. Calls terminating to Dedicated Access will be rated with dedicated rates. Actual rates will vary based on the plan selected by the Customer. Unless otherwise indicated in this Tariff, if a Customer subscribes to any of the optional features described in Section 3.6.3 of this Tariff, the rates and charges for those optional features are per TFS Number.

3.6 Toll Free Services (continued)

3.6.6 Enhanced Toll Free Services

(A) General

Enhanced Toll Free Services is a suite of complex features that allow Business Customers to route, manage and track calls for complex routing or call center applications. The majority of the Enhanced Toll Free service features are controlled via an Internet-based Web Tool so the Customer can make changes or additions to their routing plans on an as-needed basis without interacting with the Company. Enhanced Toll Free Services provide the ability for a TFS Customer to route calls based on caller-selected menu choices.

(B) Availability

Enhanced Toll Free Services are add-on Services available to Customers that (1) subscribe to any of the Company's High Volume Calling Business Optional Calling Plans for the provision of Toll Free Service that sign a term plan agreement for one (1), two (2) or three (3) years.

(C) Billing In Advance of Service

Monthly recurring and non-recurring charges for Service components are billed in advance of Service and reflect the rates in effect as of the date of the invoice (e.g., bills generated in February will cover the month of March). A Customer's first invoice may contain charges from previous periods for Service provided from the date of installation through the current invoice period. An Applicant for Service may be required to pay in advance of the establishment of Service the applicable nonrecurring charges together with the fixed charges applicable for the first month.

#### (D) Service Features

Alternate routing allows the Customer to make alternative routing changes at the phone group level effecting multiple Toll Free Numbers.

The authorization code feature allows the Customer to restrict access to the Customer's TFS by prompting callers to enter one of the valued authorization codes the Customer has defined for the Customer's TFS.

The busy/no answer overflow feature allows a Customer to define multiple routes in the event that the first or subsequent routes are busy or do not answer.

.4 Call Routing

.a Time Dependent Routing

With time dependent routing, the incoming call is screened based on the time of the call and is time zone adjusted. Time is measured in military time in one minute increments or ranges.

.b Day of Week Routing

The day of week routing feature permits the Customer to have calls to same Toll Free Number routed to different locations based upon the day of the week. Day of week routing will follow the national observance of daylight savings time.

.c Day of Year Routing

The day of year routing feature allows the Customer to have calls to the same Toll Free Number routed to different locations on specified day of the year. Dates are stored in a month/day format. It is the responsibility of the Customer to revise day of year routing schedules annually.

.e Single Termination

With single termination, calls are directly routed to a termination without special routing.

.f Percent Allocation

The percent allocation routing feature permits the Customer to define routing of calls made to the same Toll Free Number on a percentage basis so that calls can be allocated to multiple locations. Percentages must be defined in whole number, with 1% (one percent) the smallest allocation percentage to any location. The total of all percentage allocations must be 100%.

.g Service Area Routing

With service area routing, origin dependent routings are grouped to allow Customer defined serving areas.

3.6 Toll Free Services (continued)

3.6.6 Enhance Toll Free Services (continued)

(G) Feature Billing Options

.1 General

There are four feature billing options available to Customers that subscribe to Enhanced Toll Free Services. For all available feature billing options, the usage charges, MRCs, and non-recurring charges apply as specified for the High Volume Calling Business Optional Calling Plan selected by the Customer. MRCs and NRCs for Toll Free Numbers apply as applicable. The following feature billing options are available to new and existing Customers of Enhanced Toll Free Services.

.2 Combined Transport and Usage Billing<sup>1</sup> (also known as CMR)

.a General

With Combined Transport and Usage Billing, the per minute usage charge associated with the High Volume Calling Business Optional Calling Plan selected by the Customer and the per minute feature charge are totaled and appear as one line item on the Customer's bill on a per call basis. The per minute feature charge is billed based on the length of time one or more features are activated on the TFS platform. The initial period and additional period for the feature per minute charge is the same as for the High Volume Calling Business Optional Calling Plan selected by the Customer.

<sup>1</sup> This billing option is no longer available to new Customers effective June 15, 2005.

(E) Rating Inbound and Outbound Calls and Calls Billed To The Calling Card -  
Option 3, Category 21

.1 Usage Rates

The Customer's usage rate for each call is based on (1) whether the call is outbound or inbound TFS; (2) type of originating access (Switched Access or DVA) for outbound calls; (3) type of terminating access (Switched Access or DVA) for TFS calls; (4) the Customer's MMC or MAC; and (5) the length of the Customer's term plan (1 year, 2 years, or 3 years). An additional usage charge applies for TFS calls if the Customer has subscribed to CMR service. For fully automated, operator assisted or operator dialed calls billed to the Calling Card - Option 3, category 21, the usage rate is the same as the usage rates for 1+ outbound calls rated under this Service offering.

3.7.12 SBC Long Distance Virtual Private Network (VPN)<sup>1</sup>

C

(A) General

SBC Long Distance Virtual Private Network (VPN) is an outbound only long distance Service that provides the functionality and capabilities of a private network through the use of shared transmission facilities. VPN is operated by a software-controlled management system. This Service is available to Business Customers or Applicants that:

- .1 sign a term plan for a minimum commitment period of one year;
- .2 access the VPN network via one or more of the access methods described in Section 3.7.12 (B) of this Tariff;
- .3 subscribe to VPN for the provision of interstate, intrastate IntraLATA, and intrastate InterLATA calling (VPN is not available for intrastate IntraLATA calling on a stand alone basis); and
- .4 commit to a MAC of \$240,000. See Section 2.26 of this Tariff for rules and regulations applicable to MACs and term plan agreements.

<sup>1</sup> This Service is no longer available for new Customer term plan agreements effective July 15, 2006. Existing Customers may add, move, remove or change lines and/or locations for the duration of their current term plan agreement. This Service is no longer available to existing Customers upon expiration of the Customer's term plan.

(D) Features (continued)

.2 Public Dialing Plan

Public Dialing Plan allows the VPN user to dial a 1+10-digit number from a VPN switched station using the North American Dialing Plan and have that call rated as a VPN call. This functionality is specifically designed for Switched Access lines presubscribed to the Company for the provision of outbound long distance Service. The VPN user may complete three different call types using the Public Dialing Plan: (1) switched to dedicated (VPN On-Net), (2) switched to switched (Virtual On-Net), and (3) switched to switched (VPN Off-Net). This feature requires that the VPN Customer's Switched Access lines be presubscribed to the Company for the provision of interstate service.

.3 Forced On-Net

Forced On-Net enables a VPN user to dial another station within the same VPN service using the North American Dialing Plan and have the call routed as if the user had dialed the private number.

<sup>1</sup> This Service is no longer available for new Customer term plan agreements effective July 15, 2006. .4 Network Overflow

Network Overflow provides the ability for VPN On-Net calls to be routed over an alternate route should the primary route (or subsequent alternate routes) be busy. For example, if a VPN On-Net call cannot be completed due to a busy condition, the call can be routed over another dedicated switch/trunk group or over public network facilities. Network Overflow can only be applied to VPN Dedicated Access lines.

.5 Call Screen Routing

Call Screen Routing provides the capability to screen or route calls based on a number of parameters, such as the ANI from a switched line. VPN Customers may choose to block calls to a particular geographical area, or route calls depending on time of day, day of week, or day of year. Customers may subscribe to CSR features without subscribing to VPN Authorization Codes.

.6 VPN Authorization Code

Customers must subscribe to CSR in order to obtain VPN Authorization Codes. The VPN Authorization Code is used to override CSR restrictions imposed on the VPN Service. When a call screen restriction is reached, the VPN user(s) will be informed by an announcement that they do not have the proper authority to place the call. To override the restriction and enable the call to proceed, user(s) are required to enter a VPN Authorization Code with the appropriate Authorization Level. The VPN Authorization Code may be from one (1) to twenty-three (23) digits in length.

(E) Rating TFS and Outbound Calls and Calls Billed To The Calling Card -  
Option 3

.1 Usage Rates

The Customer's usage rate for each call is based on (1) whether the call is outbound or TFS; (2) type of originating access (Switched Access or DVA) for outbound calls; (3) type of terminating access (Switched Access or DVA) for TFS calls; (4) the Customer's MAC; and (5) the length of the Customer's term plan (1 year, 2 years, or 3 years). An additional usage charge applies for TFS calls if the Customer has subscribed to CMR service. For fully automated, operator assisted or operator dialed calls billed to the Calling Card - Option 3, the usage rate is the same as the usage rates for 1+ outbound calls rated under this Service offering.

<sup>1</sup> This Service is no longer available for new Customer term plan agreements effective June 27, 2005.
